Sub: Commissioning of Green Hydrogen plant

Ref: Regulation 30 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015

Dear Madam / Sir,

The Company has successfully commissioned the first and India's largest Green Hydrogen manufacturing plant located at JSW Steel facility at Vijayanagar, Karnataka. The plant will supply 3,800 tons per annum (TPA) of green hydrogen, along with green oxygen of 30,000 TPA to JSW Steel for low-carbon steel production.

A Press Release in this regard is attached.

Yours faithfully,

For JSW Energy Limited

JSW Energy Commissions its first Green Hydrogen Plant

Mumbai, India — November 11, 2025 – JSW Energy Limited (“the Company”) has commissioned its first and India’s largest green hydrogen manufacturing plant, marking a significant milestone in the nation’s clean energy transition. The project is under the Production Linked Incentive Scheme – Tranche I. Strategically located adjacent to the JSW Steel facility at Vijayanagar, Karnataka, the plant will supply green hydrogen directly to the DRI unit for low-carbon steel production.

Under a seven-year offtake agreement with JSW Steel Ltd, the plant will supply 3,800 tons per annum (“TPA”) of green hydrogen, along with green oxygen of 30,000 TPA. This forms part of the Company’s 6,800 TPA allocation under the Strategic Interventions for Green Hydrogen Transition (“SIGHT”) program by the Solar Energy Corporation of India (“SECI”).

Additionally, the Company has signed a Memorandum of Understanding with JSW Steel Ltd to progressively supply 85,000–90,000 TPA of green hydrogen and 720,000 TPA of green oxygen by 2030.

These initiatives align with the Company’s sustainability vision and India’s green hydrogen plan of ~5 MTPA by 2030, reinforcing JSW Energy’s position as a front-runner in driving the country’s clean energy transformation.

Mr. Sharad Mahendra, Joint Managing Director and CEO of JSW Energy

“We are proud to commission India’s first green hydrogen plant under National Green Hydrogen Mission, implemented through the SIGHT programme, by Government of India. The project is a key milestone in our country’s clean energy journey and reflects our unwavering commitment to support India’s transition toward a low-carbon economy and decarbonisation of hard-to-abate sectors such as steel. Green hydrogen will assume a pivotal role in shaping a sustainable and Atmanirbhar Bharat”

JSW Energy has total locked-in generation capacity of 30.5 GW comprising of 13.3 GW operational, 12.5 GW under-construction across thermal and renewable, 150 MW under-acquisition hydro and has pipeline of 4.6 GW. The company also has 29.4 GWh of locked-in energy storage capacity through hydro pumped storage projects of 26.4 GWh and battery energy storage system of 3.0 GWh. The Company aims to reach 30 GW generation capacity and 40 GWh of energy storage capacity by FY 2030 and achieve Carbon Neutrality by 2050.

ABOUT JSW ENERGY: JSW Energy Ltd is one of the leading Private sector power producers in India and part of the USD 23 billion JSW Group which has significant presence in sectors such as steel, energy, infrastructure, cement, sports among others. JSW Energy Ltd has established its presence across the value chains of power sector with diversified assets in power generation, and transmission. With strong operations, robust corporate governance and prudent capital allocation strategies, JSW Energy continues to deliver sustainable growth, and create value for all stakeholders. JSW Energy began commercial operations in 2000, with the commissioning of its first 2x130 MW thermal power plants at Vijayanagar, Karnataka. Since then, the company has steadily enhanced its power generation capacity from 260 MW to 13.3 GW, ensuring diversity in geographic presence, fuel sources and power off-take arrangements. The Company is presently constructing various power projects to the tune of 12.5 GW, with a vision to achieve a total power generation capacity of 30 GW by 2030.

Forward Looking and Cautionary Statements:

Certain statements in this release concerning our future growth prospects are forward looking statements, which involve a number of risks, and uncertainties that could cause actual results to differ materially from those in such forward-looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding fluctuations in earnings, our ability to manage growth, intense competition within Power Industry including those factors which may affect our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, our ability to manage our internal operations, reduced demand for Power, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which JSW Energy has made strategic investments, withdrawal of fiscal governmental incentives, political instability, legal restrictions on raising capital or acquiring companies outside India, unauthorized use of our intellectual property and general economic conditions affecting our industry. The company does not undertake to update any forward-looking statements that may be made from time to time by or on behalf of the company.
